# Programming DOMOTICA remote control

**1      Receiver domotica connect to ECB control box:**

Unscrew the connection cover from the ECB control box.

Connect the wiring as described below.

          Blue = N (zero)                              Brown = 4
                              Black = L1(phase)                                                Purple = 2
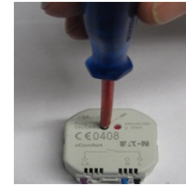

**2      Receiver programming:**

Push with a screwdriver once of the  on / off button of the receiver
and the red LED will light up.

Then push once on the left button of the remote control
and the red LED flashes 2 times.

Push with a screwdriver once on the on / off button
and the LED goes out.

Receiver is now programmed and ready for use.

**3      Receiver reset:**

Push with a screwdriver once on the on / off button of the receiver
and the red LED will be light up.

Hold the on / off button for 5 seconds and the LED flashes 5 times.

Wait for 5 seconds until the red LED goes out.

The receiver is now reset and can be programmed again.
